**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Group I (claims 1-8) in Paper No. 12/04/03 is acknowledged. The traversal is on the ground(s) that a tunable laser source and a method for fabricating a tunable laser with an integrated modulator are related inventions. This is not found persuasive because the fields of search for a tunable laser source, which is classified in class 372 and a method for fabricating a tunable laser with an integrated modulator, which are classified in class 438, are not coextensive and the determinations of patentability of tunable laser source claims and method for fabricating a tunable laser with an integrated modulator claims are different. Also, the strategies for doing text searching of tunable laser source claims and method for fabricating a tunable laser with an integrated modulator claims are different. Thus, separate searches are required.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by

Forrest et al. (US2003/0007719).

With respect to claims 1-4 and 8, Forrest show in Fig.2-4 and 13 a tunable laser source 210 comprising an active region on top the waveguide layer 216 and an electro-absorption modulator 206 sharing the waveguide layer 216 with the semiconductor laser 210 which includes a grating back mirror 1114, a phase control section 1118, a gain section 1112, and a grating front mirror 1114.

With respect to claims 5-6, Forrest disclose in Fig.3 the multiple quantum wells 224.

With respect to claim 7, Forrest disclose in Fig.2 a blocking junction (ion implant).

**Communication Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung (Michael) T Nguyen whose telephone number is (571) 272-1949. The examiner can normally be reached on 8:30 - 17:00.
